TESTIMONIALS.
From Mr. JOHN J. MAHON, Capilla del Señor, June 29, 1881.—The dip which you sent me I used according to directions, and I can assure you that it gave the desired result. During four years of practical experience of curing scab in sheep, I have seen many specifics used, and I consider Gilliard's the only one that gives complete satisfaction. It improves the quality and promotes the growth of the wool. For efficiency, economy and facility of application, I prefer it to any dip I have used.
From Mr. JAMES M. THOMAS, Estancia Santa Ines, Monte, June 29, 1881.—Having given a good trial to Gilliard's Dip, I have much pleasure in bearing my testimony to its valuable quality as a Sheep Dip. It destroys all insect life with which sheep are infected, mixes readily in cold water, does not injure the hands, and softens all hard parts. I shall strongly recommend it whenever an opportunity offers. As regards the cheapness, it should command a good sale.
*By using GILLARD'S SHEEP DIP the outlay will be repaid One Hundred-fold by the Improved Condition of the Sheep, and the increased Weight and Quality of the Wool All Sheep owners should therefore try the experiment, if only on a small Flock.*
NOTE—A sample drum will be supplied gratis to any Estanciero who is willing to give the Dip a fair trial and report on same

HAVAS' AGENCY

New York 10th.

Intelligence received from Washington report no modification in the state of the President.

New York 12th.

The President's health is still delicate, but the doctors in their last bulletin delare that the wounds show no alarming character.

Paris 11th (evening)

In a speech pronounced on a banquet M. Ferry, Minister-President of Council, manifested his conformity with the declarations made by M. Gambetta in his discourse at Tours.

### ABOLITION OF CURSO FORZOSO.

It was near midnight when the Deputies of Congress finally passed the Consolidation Bill which we give hereunder and which now goes to the Senate, where it will also be passed.

The Irish Land Bill in the British House of Commons is on a parity with the Bank Consolidation Bill in the Argentine Congress, for the interest, anxiety and discussions both these measures have produced. We shall not seek to draw the comparison further between these two great state measures, or ask our readers to decide which is the more important, tenant right or specie payment, in a constitutional country. The following is the law as it at present stands, and as sent up to the Senate.

The Senate and Chamber &c.—

Art. 1—The Executive shall emit up to 16,000,000 Hard Dollars in Bonds bearing 5 per cent interest and 1 per cent accumulative amortization by drawing at par, quarterly in gold.

Art. 2—These Bonds shall be used to pay the amounts due by the Government to the Provincial Bank of Buenos Aires, and for the definite amortization of the 10,000,000 emitted for account of the Nation, after the balance now outstanding is ascertained.

Art. 3—The Executive is hereby authorised to arrange with the Provincial Bank as to the dates and amounts in which the notes are to be burned, which must be within 2 years, and with the intervention of those officials which the Government shall appoint.

Art. 4—When this project is declared Law the Bank shall receive in Bonds an amount equivalent to the amount due to it, and the rest in amounts equal to those of the notes guaranteed by the Nation which it may destroy.

Art. 5—During the time fixed for the amortization the Bank shall be paid 4 p. cent on the amounts successively outstanding of the 10,000,000 emitted under the Law of 25th September 1876.

Art. 6—Until the amortization of all the notes emitted for the Nation is completed, the National offices shall accept the notes guaranteed by the Nation for their written value excepting for 50 p. cent of the Customs duties, which must be paid in gold.

Art. 7—Notwithstanding what is laid down in Articles 3 and 4, if the Government prefer to carry out itself the amortization referred to in Art. 2, it shall do so directly through the Treasury, to which end the Government is hereby authorized to négotiate, at home or abroad, the Bonds which remain over after paying the debt to the Bank, in the manner prescribed in Art. 4, and to apply the proceeds to the object indicated, reporting the result to Congress, in the first half of the coming year.

Art. 8—Whether the Bank undertake the amortization or not, it shall be bound to withdraw from circulation, in the way most convenient, and within the two years fixed, all the notes which bear the guarantee stamp of the Nation, to an amount equal to its primitive emission of 12 millions.

Art. 9—The Law of 25th September 1876 is hereby rescinded.

Art. 10—Let this be communicated.

### THE RAILWAY TRAGEDY.

LEFROY'S DEFENCE.—HIS ACCOUNT OF THE TRAGEDY.

The Central News says:—The relatives and friends of Lefroy have decided that Mr J. D. Dutton, solicitor, who attended at the inquest on Mr Gold's remains, should undertake the prisoner's defence. Lefroy himself, who knows Mr Dutton slightly, the latter having acted as solicitor for his sister, has also besought the services of that gentleman. A clerk of Mr Dutton has visited Lewes Prison since Lefroy's incarceration, and had an interview with the accused. Lefroy, he states, was calm and collected, and impressed him with a conviction of his innocence. The prisoner maintained that he was entirely innocent of the murder of Mr Gold, and gave the clerk his version of what took place in that terrible ride on the Brighton Railway, revealing, it is stated, some new and startling circumstances which have thrown a different light on the prisoner's conduct. Yesterday afternoon, in answer to a request from Lefroy, his friends have forwarded him a bundle of clothes, including changes of linen and apparel. Arrangements have also been made so that he will not require to depend solely on prison fare. Mr Dutton received a letter from Lefroy yesterday asking him to visit him to-day, or without fail by to-morrow morning, at Lewes Prison, as he had matters of importance to communicate. Mr Dutton will be present at the magisterial inquiry at Cuckfield on Friday next, and he has meanwhile sent a communication to Mr Pollard, solicitor to the Treasury, to ascertain whether the latter intends conducting the case for the prosecution on the day in question. Lefroy's sisters will not attend Friday's inquiry.

The Press Association says that throughout yesterday the detectives charged with the duty of investigating additional evidence in connection with the murder of Mr Gold have been diligently at work in two directions. They have been endeavouring to discover the missing watch, to which they attach much importance, but have been unsuccessful. It was believed that a clue had been obtained yesterday morning to the pistol with which it is supposed Mr Gold was shot. Special inquiries with respect to it were made, not only in London, but in Lewes and Brighton; but here again no information could be gained. It is, however, known that Lefroy possessed himself of a pistol, which he purchased on the morning of the murder, and the assistant of a London pawnbroker, who sold it to him, was with one of the detective officers throughout yesterday, with the object if possible of identifying the weapon should it be found. In the neighbourhood of Stepney there is still considerable excitement, and the house in Smith-street, in which Lefroy took temporary refuge, has been largely visited; but the police are now directing their efforts for further information in other directions.

The prisoner maintains the same composure in prison at Lewes as he has done since his arrest. He partakes with apparent relish of the meals supplied to him, and makes no reference to the crime with which he is charged, except a desire to communicate with his friends as to his defence. Of course every facility for this is afforded him.

THE WINNER OF THE REWARD.

With regard to the apprehension of Lefroy, a tradesman who supplied Mrs. Bickers with provisions states that he first made the acquaintance of Lefroy on the day of his entering upon the possession of the room. At the time he saw him he did not notice any mark upon Lefroy's forehead, though he remembers perceiving the nervous manner in which he rubbed his chin, and which has been several times mentioned as a means which might probably lead to his identification. Lefroy at the time had no ordinary coat, but only an overcoat, and when he used to come down to breakfast he generally presented himself in his shirt-sleeves. It was about two o'clock on Friday afternoon that Mrs. Bickers had an interview with the inspector in charge at the Thames Police Station, and gave a description of her lodger. All this time, however, neither the landlady nor her tradesman friend, whom she had consulted, had the least suspicion that 'Clarke' was the missing Lefroy, and therefore no indication was given at the police station of the immediate proximity of the man they wanted. Inquiries were, however, set on foot, and at about seven o'clock in the evening three detectives from Scotland-yard arrived at the house, and finding that the lodger was undoubtedly Lefroy, they concerted with the landlady a pretext for entering his room. Lefroy submitted very quietly to the arrest, and upon being brought downstairs, and while waiting for the cab to convey him to the police station, the landlady said to him, 'You know, Mr. Clarke, that I am innocent of everything that has occurred.' He replied, 'Oh, you knew nothing about it.' She then went on, 'I would not have waited upon you had I known that you were a murderer, nor would I have had you in my house.' Lefroy turned to the detectives and asked whether he could employ a solicitor. The detectives replied in the affirmative, and he was then driven quietly away. There can now be little doubt but that the telegram sent by Lefroy from 32 Smith-street, to the man Seale was the cause of his arrest. It appears that the suspicions of his landlady, Mrs. Bickers, being aroused by his peculiar mode of living, she sent her daughter to the address indicated on the telegram, which was directed to 'Mr. S. Seale, J. T. Hutchinson, 56 Gresham-street, E.C.' for the purpose of making inquiries and ascertaining whether her lodger really had a friend there or not. At Gresham-street Miss Bickers had an interview with Mr. Hutchinson, with whom in the conversation she had with him she freely discussed the suspicious character of the lodger in her mother's house.

Shortly afterwards a gentleman arrived at Scotland-yard, and said he wished to give information as to the whereabouts of a man whom he felt was the missing man Lefroy. On being asked for his communication he refused to say anything until the paymsnt of the reward to him alone was guaranteed by the authorities (of course on condition that his information was correct), and it was also promised that his name should never be divulged in connection with the matter. These preliminaries having been arranged to the mysterious gentleman's satisfaction, he informed the inspector in charge of the detective office that he believed the man they wanted was to be found at 32 Smith-street. The manner in which the informer delivered his communication, and his 'wideawake' style of doing business, so impressed the authorities that detectives Swanson and Jarvis, who happened to be in the office at the time, were at once despatched to Stepney—the result of their visit being already known.

### THE BALANCE SHEET OF THE WORLD.

FOR TEN YEARS, 1870—1880.

By Michael G. Mulhall, F.S.S. London: Edward Stanford & Co.

The labour involved in the preparation of this work must have been very great, one might almost say appalling. It will be a volume of vast benefit to statesmen and the commercial world, for there is to be found in its admirably arranged statistical tables a treasury of valuable

**THE GLYCERINE DIP** can be used with **COLD WATER.** Sole Agents **MOORE & TUDOR,** Maipu 93 and 95. Beware of imitations and falsification

and interesting facts. Twelve ingeniously constructed diagrams are also given, which show at a glance the results arrived at in the tables, and which are further explained by some very condensed, but singularly lucid, pages of introductory letterpress. Thus, speaking of the first table, Mr Muthall observes: "We find that the six industries, which may be said to make up the week of human labour, reach a total of 10¼ milliards sterling, showing an advance of 22¼ p. cent since 1870. ..... At present, Great Britain holds the foremost place, but the U. States will probably pass us in the ensuing decade. In like manner Germany gives promise of getting ahead of France, and becoming the third of the great powers of industry." Again, speaking of Table 10, 'taking the aggregate traffic of the high seas, we find that steamers carry 57 p cent., and sailing vessels 43 p cent of the total. The carrying power of the world is now 82 tons per 1000 inhabitants, against 60 tons in 1870, that of G. Britain has, in the same interval, risen from 310 to 487 tons, being thus six times the average of all nations.' Two tables are devoted to 'food supply, and these have a special interest for every dweller in a restricted island like our own, where so large a proportion of the grain and meat consumed has to be imported. The present generation has forgotten the consternation of their grandfathers when Mr Malthus unhesitatingly announced that the day was rapidly approaching when the food supply of the world would be utterly inadequate for its inhabitants; that the produce of the ground could increase only in an arithmetical ratio, whereas the population of the world increased in a geometrical ratio, and hence, if unchecked, something like universal famine would ultimately ensue. It was upon this view that he urged his much misrepresented advice, that improvident and early marriages should be in every way discountenanced, and even life-long celibacy encouraged. Mr Mulhall's tables are rich in comfort on this all important question of food. It is true that 'Europe has a deficit of 380,000 000 bushels of grain and 853,000 tons of meat yearly,' but it is also true, on the other hand 'that the U. States have a surplus of 370,000,000 bushels of grain, and 1,076,000 tons of meat. Taking the world on the whole, we find 22,000,000 bushels over consumption, and as for meat, there is a surplus of 2,144,000 tons, that is, enough for 42,000,000 of people more than at present.' 'G. Britain and Belgium are the countries most dependent on imported food for their supplies.' The temptation is strong to quote many more interesting results, especially on Money, Population, Railways, and Telegraphs, but it it better to refer the reader to Mr Mulhall's volume, which will richly repay any trouble bestowed upon it, and which is full of interest for even those who, as a rule, eschew statistics and abhor figures.—*The British Mail.*

## LATEST FROM CHASCOMUS.

On Sunday, 7th inst, the Rev. M. P. Ferguson held the usual quarterly services at the estancia Espartillar. The spacious hall provided for the purpose by Mr Fair, (a description of which has already appeared in your columns), was completely filled, it might almost be said, inconveniently crowded. This was the more remarkable, the season being winter, and shows not only the popularity enjoyed by our worthy and esteemed Minister among his camp parishioners, but also how much the liberality of the enterprising proprietor of this extensive establishment is appreciated by the Scotch community in the neighbourhood, enabling them to enjoy at stated intervals the privilege of public worship according to the form of the ancient Church of Scotland.

A gratifying feature of this meeting was the presence of several Scotch shepherds, who have recently been added to the staff of this establishment, for while the management considers the necessity for improving the breed of sheep by importation, it likewise recognises an important essential viz; to provide men of practical experience for the care and superintendence of the flocks. This system must, in time, undoubtedly give the best results, both in yield of wool and increase of stock.

## EDITOR'S TABLE.

The Consolidation Bill was finally passed in the National Deputies on Thursday night. We give it, as amended, in another column. The question now is, what's next on the card? There are so many Bills of the first importance to be discussed that it is hard to know where to begin.

The R. Rev. Dr Stirling, Bishop of the Falkland Islands, will preach to-morrow at Mr Thomas's estancia Los Galpones.

An account of the outward voyage of the R.M.S. Tagus, and all the gay doings on board, will be found in our Supplement: it is so long that we have been forced to cut it in two, and will publish the second chapter to-morrow.

The latest from Montevideo is that President Vidal will issue a manifesto to the Chambers on the 15th, telling the country whether he really means to resign and deprive it of his valuable services or not. Colonel Santos has gone to rusticate at his estancia, and many people say this means some kind of political mischief, as rusticating and sleeping in the Capitania are generally followed by a rumpus of some kind in the Queen City. Supreme honours have been decreed to the memory of Joaquim Suarez, and there will be three whole days totally devoted to oratory, flags, fireworks and feasting. Time is evidently not money over the water, or it would not be wasted in this absurd fashion.

The Men servants of the city dont mean to stand the new edict of the Municipality about the registration of their 'gremio.' They have engaged an eminent lawyer, and mean to prove before the Courts that the ukase and new tax on servants is 'tout a fait' illegal, and they wont pay a cent of it.

We have received from a leading German subscriber explanations in reference to the alleged assault by the German schoolmaster on a little girl, and as the affair appears to have been very much exaggerated the publication of the letter on the subject which we referred to yesterday is unnecessary and would not mend matters.

It is said that fully 2000 Russo-Germans in Brazil will be down here shortly. The climate there is too hot for them.

The *Razon* of Tucuman says there is little or no business doing in sugar or spirits of wine there, owing to the unsteadiness of prices. Our colleague says there will be a stiff rise in rice and maize up there, as both are in short supply. In the way of general news there is nothing from the 'Jardin de la Republica.'

A new French newspaper—the *Echo de France*—is about to be started in Montevideo. It is very hard to make a foreign paper pay in that city. In French, Italian, or English, all previous attempts have failed.

A 'Club de Residentes Estrangeros,' on the model of that in Calle Rivadavia, is now being organised in San Nicolas. We wish it success.

Everybody is talking of Captain Manton's splendid invention, the Telephone Arches. They will be placed in the centre of each block, 25 feet from the ground, with tiny holes to run the wires through, and lightning conductors to the earth at each 'esquina.' They will be an immense acquisition during Carnival and form the bases of a general illumination, as thin gas pipes can be easily attached to them. Every square in the city will become like a 'glorieta' with this Manton Arch, as the telephone comes into general use. The Municipality has the Arch under consideration, and the sooner it is adopted the better, as the wooden bear cages now on the 'azoteas' are dangerous and unsightly.

Our Rosario friends will be glad to hear that Dr Frend, who was prohibited from practising in that city has just gone through the examinations of the Medical Faculty of Buenos Ayres in a way that does him the utmost credit. Dr Frend, though received at home and in Bolivia, was fined at Rosario for exercising his profession. Persecuted in every way, he came down here, and without the slightest hesitation, as a man conscious of his abilities, he presented himself at once for examination and came off in a way that fully justifies the faith all his Rosario friends had in him. We congratulate both parties on the successful event.

The telegrams from Valparaiso are important. The Chilian garrison of Sama, a small town near Tacna, is reported as beleaguered by the Peruvian guerillas. In the Chilian Congress a stormy debate is going on in reference to the want of energy displayed in carrying on the war, and Deputy Errazuriz has brought in a Bill to establish exclusively Chilian Government in the Peruvian territories occupied by the Chilian troops. Next week the Boundary Treaty with this Republic will be discussed.

The Cabildo clock is going to the dogs: Its three faces now generally indicate three different times of day instead of one. For some time now this clock has been out of sorts.

The Committee of the National Deputies recommend as a clause of the new Municipal Law for the Capital that foreigners who pay 50 pats of Patentes or Contribucion Directa shall have a vote, and those who pay 100 pats shall be eligible as members of the Town Council.

The Port Captain has prohibited small vessels carrying deck loads in future, so many accidents have lately occurred from this practice.

In the National Guard of this province there are enrolled, 40,695 bachelors, 16,647 married men, and 453 widowers. Most astonishing to relate, we find there are only 43 lawyers in the whole force, and 49 brokers. The estancieros muster very strong, 4532, the doctors only muster 45, and the fighting editors 4. It would be unfair to expect all the editors to write and fight at the same time.

All the banks, public and private have signed a petition to the Prov. Government not to remove the Tribunal de Comercio from Calle Peru, as it is more convenient there than anywhere else.

We are requested to call attention to an advertisement in another part of our paper, from which it will be seen that Messrs. Jacobsen and Co. have some foreign newspapers and periodicals to dispose of on special terms. It will be difficult in many respects to say which are the most desirable, those relating to the thrilling incidents of the first half of the year or these which may come. We also observe that the usual activity of novelties in birthday cards is kept up by a constant supply of these interesting and lovely 'souvenirs.'

| | |
|---|---|
| Patacons | 25.70 |
| Cedulas A | 99¾ |
| National Bank Shares | 110 |
| Old Gas Co. Shares | 2,000 |

This was a brisk day enough on 'Change and all the brokers earned good commissions. During business hours the following business was transacted—

Gold sales, 575,3oo pats.
National Bank Shares, 6,5oo shares
Cedulas, 446,1oo pats.

Gold holds very even and was slightly weaker than yesterday. The passage of the Consolidation Law by the Deputies last night always points to the way out of the 'curso forzoso' maze; and except those who want gold to cover engagements there is nothing worth talking of doing in the market.

Cedulas on the contrary have assumed a new importance in the market and threaten to become the subject of great speculation. The bears certainly won the day to-day, since they with their tremendous sales on time at low rates have weakened the cash price; close on half a million of Cedulas sold during business hours, and of this large amount only 47,1oo cash. The Cedula market rules now the same as last month, and the impression is that the closing price this month will be about the same, namely one premium.

Gold opened and closed at 25.70 cash; sales 67,3oo pats. For Saturday 48,ooo pats at same price, for end of month 14o,ooo pats. at 25.65, and for long dates 32o,ooo pats. sold at 25.55 and 25.60.

Cedulas opened at 99½ cash and closed at 99⅝; cash sales, 47,1oo. For end of month 214,ooo, opening at 99½, selling down to 98⅝, and closing at 99¼. On long dates 185,ooo sold from 98 to 99.

National Bank Shares opened feverish at 110 cash, sold up to 111, and closed at 110; 67o shares sold. For end of month 4,1oo sold, opening at 111, going up to 112, and shutting at 110½, and for Sept. 1,82o sold, opening at 110 and closing with a sight at 108.

The report of the B. Aires New Gas Co. was given round to-day; we hold it for to-morrow We note that the Company earned last year £23,540 10s 3d, and after paying 5 o/o div. hold balance £13,472 0s 11d.

In Old Gas Shares there is a stir, and the stock in great demand at 2,ooo m/c per share. The fortunes of the Company are so bright that most people think the shares are cheap at 2,5oo. A large lot offering, but holder asks that figure and wont sell under.

Some of the brokers reported on 'Change that the Provincial Bank Board is about to advance its interest rate still further. We hardly think that the Board will resort to any such measure.

The sales at the ring were—
For cash 66,3oo 25,70
For Aug. 13th 48,ooo 25.65-70
For August 31st 14o,ooo 25.65
For Sept. 30th 1oo,ooo 25.60
For Oct. 31st 7o,ooo 25.60
For Nov. 30th 9o,ooo 25.55-60
For Dec. 31st 6o,ooo 25.60
Sales, 574,300.

Cedulas—
For cash A 47,1oo 99½-⅝
For Aug. 31st A 214,ooo 98⅝-99-½-⅝-¾
For Sept. 30th A 125,ooo 98½-¾-⅞-99
For Oct. 31st A 4o,ooo at 98
For Nov. 30th A 25,ooo 98
For Dec. 31st A 5,ooo 98
Sales, 436,1oo.

Nat. Bank Shares—
For cash 679 shares 11o-111-110½-½
For Aug. 13th 1oo shares at 111
For Aug. 31st 4,1oo shares 111-112-110 to 110½
For Sept. 30th 1,82o shares 11o-109½-1o9 to 108½-½-108

Sales, 6,699.

Old Gas Co. Shares—
For cash 4oo shares at $2,ooo

Gold at afternours ruled the same; at one time prices looked rising for to-morrow, but a hushed whisper spread that the Government will sell to-morrow checked the bulls. Moreover, it is known that to-day and yesterday telegrams are running to and from London about the 2o Million Loan, and at any moment we may have the news that the business is closed. The gold market at 5 o'clock closed buyers at 25.7o for to-morrow.

Cedulas in liquidation showed reaction; sales were made at 99½ and 99⅝, and market closed buyers.

National Bank Shares are dropping, and a new flag from up the river has been hoisted over the stock. The great bull who tossed the stock up from 98 to 117 is now so far out of the market that his broker sold 5oo shares cash this afternoon at 11o and offered to deliver cash all that he had sold for the end of the month. For many, however, the Bank Share market looks broken for the present, and there will be a squeeze at the end of the month in this stock the like of which was never before seen in this market. Money on shares was taken up to-day at a valuation of 8o on the stock.

A very important business was spoken of on 'Change this afternoon, but we must wait for to-morrow to give full particulars; it means sunshine for the market.

Mr Duportal's rams were sold to-day at fair prices, the attendance was good, prices ranged from 2ooo to 6ooo m/c.

Baltar & Quesada's was thronged to-day by people who take an interest in ostriches Two South African ostriches walked the yard magnificent birds.

Messrs Baltar & Quesada sell next week 4 leagues of prime land in Rio Cuarto, the valuation is so low that the land seems a capital purchase.

Mr David Methven Jr, who has arrived from the South, was welcomed on 'Change, also Mr Pequin from Paysandu, also Mr McClelland from Gualeguay.

On Wednesday Messrs Schwartz & Co. will give a grand spread at their factory to try their sales against Chubb's. The affair promises to be a very hot business.

The share market closed heavy at 11o for end month, and 1o8 for Sept.; few buyers.

At the wool market this morning 25oo sold at 79.

14o,ooo pats sold at 5 o'clock for to-morrow at 25.7o.

Exchange rules from 49⅜ to ⅝. The Prov. Bank to the present has not drawn £1oo,ooo sterling.

The Bank discounted to-day about 1½ million.

Yesterday the treaty was delivered signed to the Chilian Government in Santiago and will at once be submitted to the Chilian Congress. Last night the Deputies took up this question. The Boca was flooded yesterday.

One of the most interesting features of the news from Europe by last mail is the grand burst-up of the great Bi-metallism Congress. The subject is one of the greatest importance in this market since many of our financiers were avowedly in favour of the double standard in this country. The European Bi-metallism Congress, finding it impossible to come to any decision on the subject, has been adjourned until next April, and this has led to such a trouble in silver throughout the European markets that it is difficult to suppose Argentine statesmen will overlook the lesson. Bi-metallism in some countries in Europe has established a species of forced currency, which seems even more permanent than our own. In France and in Belgium the Banks are harassed by an accumulation of silver, and although paper money is nominally at par, still there is no getting gold from the Banks except at a premium. It is desirable therefore that as we are about to reform our currency and establish a Mint of our own, the Argentine Republic should not rank in the rearguard of the routed army of bi-metallism, and our ex-Minister Dr Plaza may well pale their ineffectual fires before the result of this bi-metallism congressional fiasco.

Messrs Tomkinson, Dungey & Co, report the following charters in these days.

Austrian barque Padre Tyglio, to load bones in port for N. York at 4 frcs per ton.

Italian do Rosa Concetta, to lose in port guano for U. K. for orders, and back with coals for the lump sum of £950 stg.

British barque Ebenezer Parry, to load maize in Campana for Port Elizabesh, at reserved rates.

Italian barque Principesa Margarita de Piemente, to load lumber pitch pine from Pensacola, for Montevideo for orders, at 17 frcs. per 1000 feet.

Italian barque Diana, to load in port for the Cape of Good Hope, lump sum £500.

French barque Clementina, to load in port mules for Mauritius, and back again round trip, at reserved rates.

Italian barque Marrietta to load pitch pine lumber from Pensacola to Montevideo for orders at 17 frcs.

And have also loaded the Italian brig Zio for Liverpool to sail about the end of this month. Our young friends seem to have taken the whole shipping business to themselves, and well they are worthy of it.

We have received the following for publication in this column:—

B. Aires, Aug. 11th, 1881.

To the Editor of the *Standard*
Dear Sir,

"Everything in the R. Plate marches with seven-leagued boots" said one of the parties who were preparing the camp for the fall of gold three months ago.

This would have been an excellent motto for the leader in last Sunday's *Nacion*, showing the increase of our debts, the interest and amortization of which will next year exceed 50 o/o of our income.

I do not contradict this sentence as regards the increase of paper money, theatres, billiards and general expenditure, but I do not think it adequate as to:—the passing of financial laws, the condemnation of criminals, nor the production of this Province, which has remained stationary in spite of the linseed.

As regards the nation, the trade with Bolivia is developing very fast by way of Rosario Salta, and some increase in the production of sugar, &c. in the Interior is to be noted, after the following sums have been spent for building railways in the Cuyo and neighbouring provinces:—

| | Millions. |
|---|---|
| Rosario to Cordoba [guaranteed by Government] about | $f. 8 6/1o |
| Cordoba to Tucuman, cost .. | 8 6/1o |
| Villa Maria to Villa Mercedes, cost | 4 1/1o |
| Villa Mercedes to San Luis, not yet finished, will cost | 1 7/1o |
| About..... | $f.23 millions |

[not countiegy the traffic expenses], adding to this the recent loan of 12 millions for the Northern Central and the Andine Railway, we arrive at the figure of 35 million pats, i. e. more than 1½ times the yearly revenue of the Nation and more than the whole amount of our paper money.

This sum will appear still larger, if compared with the, now so much boasted of, foreign trade of the 11 Provinces this side the Parana 20 months ago—

| | Imports, 1879 |
|---|---|
| Aduanas del Rosario and Sta. Fe | $f. 5,416,927 |
| Aduanas del Jujuy, Salta, San Juan and Mendoza | 863,106 |
| | $f. 6,280,033 |
| | Exports, 1879 |
| Aduanas del Rosario and Sta. Fe | $f. 4,072,487 |
| Aduanas del Jujuy, Salta San Juan and Mendoza | 1,624,110 |
| | $f. 5,696,597 |

The export of precious metals is included in the above sum, but it only amounted to—

| | |
|---|---|
| Silver | $f. 174,168 |
| Bismuth | 49,963 |
| Copper | 136,431 |
| Lead | 1,925 |
| Sundry metals | 228 |
| | $f. 362,715 |

The trade of the Province of B. Aires was as follows during the same period—

| | Imports, 1879 |
|---|---|
| Aduana de la ciudad | $f. 36,481,620 |

Looking at the financial state of some of the Provinces, it creates a rather sickening feeling, when reading, for instance in the Memoria de Hacienda de la Provincia de Salta, elevada al HH. CC.—

"El calculo de recursos para 1879 se elevaba a $f. 149,902.35 y lo recaudado a $f. 110,581.43 lo que ha dado un deficit de $f. 39,320.91."

In spite of the seven-leagued boots and the new Bolivian trade I venture to predict that the whole increase of the Rosario Custom House receipts will soon be counterbalanced by a heavy falling off in the import duties of this Province.

Mrs S. A. Allen's World's Hair Restorer

The Genuine only in Pink Paper Wrapper
It cannot fail to Restore Grey Hair to its youthful Colour, Gloss and Beauty

IT IS NOT A DYE

It ever proves itself the natural strengthener of the Human Hair.

THERE are two special qualities which determine and fix the superiority and excellence of Mrs S. A. Allen's World's Hair Restorer:—First—its prompt quick action, and the new growth, life, and vigour that it is sure to give to the hair, never failing by a few applications to Restore Grey or White Hair to its Youthful Colour, imparting to the hair a delightful aroma, fresh, delicate, and unchangeable in any climate. Second—its easy application without any previous preparation of the hair; without that sticky and disagreeable sulphur odour found and complained of in other preparations. It never stains the skin or linen. It retains the hair in any desired position, and is cooling and cleaning to the scalp.

Use no other Preparations with it, not even Oil or Pomade or Zylo-Balsamum

To Restore Grey Hair, Mrs. S. A. Allen's World's Hair Restorer is the best.

Because it is made from Choice Materials and prepared with the utmost Care and Skill.

Because over Forty Years the Favourite Preparation, enjoying by far the Largest Sale, it must be the Best.

Because it Does Not Dye the Hair, but Strengthens it. Grey Hairs soon Disappear.

Because by its Gentle Tonic Action the Roots are strengthened—New Life, and Hair Natural Colour.

Because the Soft and Silky Texture of Healthy Hair follows its use.

THE HAIR

Its Beauty can be Restored and Preserved.

"Beautiful Hair, Nature's Crown, Luxuriant and Beautiful Hair"

It cannot truthfully be said that at any age, period, or condition of life the Hair can or should be allowed to take care of itself, and requires no aid to stimulate and maintain its growth

Venderemos al mejor precio y dinero al contado, 10 magnificas borregas Rambouillet, primer lote de animales que presenta en nuestro mercado procedente de su establecimiento Santa Catalina, en Mercedes, el Sr. Don Domingo Frias.

El origen de estas ovejas es de primer orden, como lo demuestran los dates siguientes:—

El 1863 compraron los Sres Rayces hnos., para su establecimiento "La Fraternidad, en el Partido de Lujan, al Sr Don Francisco Halbach en la Cabaña Los Remedios, 935 ovejas y Rambouillet y 20 carneros puros de la misma raza; de estos animales se eligieron 200 piezas de las mejores que fueron servidas por los carneros puros, y dos anos despues, el ano 1866, habiendose aumentado a 400 la tropilla, se hizo una nueva eleccion de solo 50 ovejas, las que fueron servidas por un carnero europeo de la Cabana Imperial de Rambouillet.

Despues de los Sres. Rayces siguieron eligiendo los mejor s productos y sirviendose de padres de primer orden, entre otros el carnero de los Sres. Olivera que obtuvo el primer premio en la Exposicion de Cordoba.

Es sabido que el Sr. Frias ha seguido con mucha prolijidad mejorando la cabana, comprando siempre padres superiores como lo es el magnifico carnero 520 del Sr Van Homeyer, por el cual vienen servidas las borregas presentadas en venta.

Estos animales son criados a campo y se distinguen por sus formas, tamano, lindo tipo y finura del vellon.

Procederemos a la venta en remate publico a la mas alta postura y dinero de contado, por orden y cuenta de los Srs Ocampo Hermanos, un selecto lote de Moruecos Negretes sangre puro.

Repetiremes aqui algunos datos que hemos publicado en anos anteriores, sobre el origen de estas cabanas por considerarlos importantes para los senores ovejeros amantes a esta bellisima raza.

La cabaña que es hoy propiedad de los Srs. Ocampo, fue adquirida por esos senores en el ano 1875 cuando fue vendido por nosotros en remate publico por cuenta y orden de los Srs. Eduardo Olivera y hermanos, que entonces eran considerados como los mejores criadores en la raza Negrete, habiendo fundado la cabana en el ano 1858 con animales elejidos personalmente por el Sr Don Eduardo Olivera en sus viajes por Alemania, observando el sistema mas perfecto de aparejamiento, teniendo su orijen de los rebanos de Hochitz (Austria) que como se sabe es la base del verdadero Negrete. Mas tarde en 1865 introdujo bellisimos animales de la misma raza, procedentes de la cabana Modenzin, cuya majada ha sido reputada como la mas perfecta y bella, por criadores afamados.

Los rindes de los carneros padres de esta cabana son de 24 a 28 lib., siendo el de las ovejas de 14 hasta 20 lib. por vellon, rinde extraordinario y que solamente se obtiene a fuerza de escrupulosidad que los Srs Ocampo tienen para el aparejamiento de su majada, siguiendo el mismo sistema establecido por su fundador y como es consiguiente renovando la sangre introduciendo los mejores carneros padres de la misma raza que han pedido encontrar en Alemania.

Son pues de este origin los 20 carneros que ofrecemos en venta cuya edad es de 16 a 20 meses de edad, con lana de de diez meses, habiendo entre ellos animales de alta reserva.

Los carneros podran examinarse en nuestra casa Alsina 78, cinco dias antes del remate.

Remataremos a la mas alta postura y dinero de contado, por orden de las senores Amade e hijos y pertenecientes a su cabana Laguna del Trigo partido de las Flores.

**25 carneros Rambouillet**

Algunos ce ellos hijos del carnero Thiers, importado por los Senores Amadeo, de la cabana Imperial y uno de los mejores animales que han salido de aquel establecimiento para nuestro pais, segun datos directos que tenemos de la cabana.

En *El Standard* del 24 de Setiembre del ano pasado se encuentran datos interesantes sobre este esplendido reproductor.

La cabana de los Srs Amadeo e hijos fue fundada hace mas de 23 anos con animales elejidos en Francia y para que los Senores estancieros, deseosos de obtener animales de buen y puro origin, pueden formarse una idea, damos aqui el detalle de las varias espediciones que han sido hechas desde Euaopa por cuenta de la cabana Laguna del Trigo.

**Origin de la cabaña de los Sres Amadeo**

1857—Recibidos en Francia, enviados por D Saturnino Soriano [padre) y hechos elegir a satisfaccion por intermedio del senor Duplessi, ocho animales.

En este lote vino el famoso carnero Luis Felipe que muchas personans han conocido y apreciado.

1859—Recibidos por la fragata Panama, enviados y hechos elegir con especial cuidado en la cadana Imperial por los senores Masneran Dupont en Paris, 8 animales.

1860—Encargados con especial moderacion y recibidos en la fragata Alix por intermedio de los Srs Diehl, Fernau y Ca 20 animales.

1861—Recibidos por la fragata Panama y pedidos a los mismos Srs Dhiel, Fernau y Ca con recomendacion que fuesen iguales a las magnificas borregas anteriores, 20 animales y llegaron 26 animales.

1861—Pedido a los Srs J B Vignal y Ca y recibidos por el Buffon 3 animales.

1864—Recibidos por el Jaques Coeur y hechos elegir con esmero en la cabana Imperial por medio de los Srs Charias, Offman y Ca de Paris, 2 animales.

1876—Obsequio de nuestro amigo el Sr D Emilio Duportal, de su bien reputada cabana de San Vicente, 1 animal.

1878—Obsequio del mismo Sr Duportal y tambien de su cabana de San Vicente, un animal.

1879—Elegido y pedido por el Sr D Enrique Meyer, un notable carnero, que sirvio mucho tiempo de reproductor en la famosa cabana Rambouillet, animal que no tenia precio y solo se vendio cuando dos hijos suyos pudieron reemplazarlo, vendos por el Belgrano, por conducto de la casa de los Srs Dilleman y Ca, un animal.

Total recibidos 64 Rambouillet.

Como los Srs Amadeo e hijo nos dicen que creen pues su deber exhibir los titulos que tienen para ser considerados como poseedores de una cabana verdaderamente de sangre pura Rambouillet hemos publicado los datos que anteceden y que nos parecen titulos sobrados para elevarno de todo otro elogio.

Ademas los Srs estancieros los veran 5 dias antes de remate y juzgaran si tienen o no las condiciones del puro merino frances.

El 20 del corriente estaran en nuestra casa Alsina 78.

Remataremos a la mas alta postura y dinero de contado, procedentes de la cabaña 'Las Acacias,' estacion Olivera, sobre el Ferro-Carril del Oeste, propiedad de los Sres. Eduardo Olivera Hnos.

30 esplendidos Rambouillet Argentinos, carneros del mas puro origen, y cuya base, como todos saben, fueron animales elejidos personalmente por el Sr. Gilbert, padre del actual poseedor de la cabaña en Wideville, habiendo los Sres. Olivera obtenido el actual tipo de sus carneros a fuerza de la prolija seleccion que se ha hecho en su cabaña y a la contraccion e intelijencia empleados durante un largo lapso de tiempo que llego a la altura que hoy tienen los productos de esta cabaña.

En prueba de ello tenemos a disposicion de los interesados la fotografia de los primeros carneros de aquellos padres de la cabaña Gilbert, para que puedan formar una idea exacta de la enorme diferencia que existe con los actuales carneros que hoy ofrecemos en venta.

Cuando se llega a la altura que hoy tienen los carneros de las Acacias, que puede decirse es el ideal y la perfeccion del tipo, no se necesita hacer mayores recomendaciones, tanto mas que los Sres. Estancieros que han comprado estos animales estan muy satisfechos de los resultados que han obtenido.

Podemos asegurar desde ya que esse lote que viene a venta llamara la atencion de los criadores y los interesados pueden pasar a examinarlos cuatro dias antes del remate a nuestra casa Alsina 78.

## "BY THE TAGUS."

### AN OCEAN EPISODE.

'By the Tagus,' the answer given by most of us to any enquiries made as to the method of transit chosen when we announced that we were about to start for South America 'by the Tagus,' three short words, most simple in appearance, and those that would naturally suggest themselves to us, as summing up in the shortest manner the whole of the required information: but in those three short words did we all of us think as we uttered them, how much was expressed, how much hidden meaning there might be; and did we realize that they might perhaps serve as a theme for much reflection in our after life. For many of us the voyage itself—the actual self same voyage by one of the Royal Mail steamers across the Atlantic—was not new; for others, travelling in one way or another on different lines in different parts of the world had become so much a matter of habit that they had come to regard it as part of the natural order of existence; others, again, might have not had quite so much experience, but nevertheless reconciled themselves to this slight departure from their usual habits as one of the many changes and chances that human life must necessarily bring about; we all said 'by the Tagus' calmly, and as if it was a matter of course we werre going to occupy a month of our lives in crossing the Atlantic, and no more need be said about it.

But a month is a long time, or at any rate quite long enough a time for plenty of things to happen in it. Governments have been overthrown, the faces of countries have been changed by natural influences so that those that revisit them have not been able to recognize them; inventions have been suddenly hit upon that have revolutionized the whole system of some one or other industry; many unexpected things have taken place between the beginning and ending of a month, and though of course nothing very startling of this sort would be likely to take place in the course of our voyage on the Tagus, yet which among us could tell what change in his or her fortune might be brought forth from it. We cannot say absolutely that all these reflections crossed our minds as we stepped on board the Tagus at Southampton on July 9th, and glanced around at the many faces that were then complete strangers to us, but with whom we were fated to be boxed up, whether we liked it or not, for the next month. We were too busy at the first start looking after our luggage and arranging with the steward as to the bestowal of our berths, to be able to give much time to other thoughts, but when we had got a little settled down we could afford more room in our minds for former speculation as to the prospects of the voyage from the appearance of our fellow-passengers. There were, say sixty odd, passengers, with the exception of where they were travelling in families, all probably more or less strangers to each other: leaving the Portuguese and other foreigners out of the question, as emergencies only to be fallen back upon in the very last extremity, owing to an unfortunate incapacity on their part to understand us: there were all the chances to be considered whether this particular body of human creatures had been selected by destiny so that its various elements would amalgamate or not, the pleasantness of the voyage, or the contrary, entirely depending on the correct solution of the problem. Perhaps some face that we saw might inspire us with a sense of aversion, perhaps we might be seized with an unaccountable liking for another; but, for all we knew, by the end of the voyage that aversion would be turned into the most violent attachment, and the case would be contrarywise with the liking. It was all a matter of the merest chance; and, as the chances happened, it turned out most favourably.

Thirty clear days did the voyage occupy; and, for clearness' sake, it will be better, perhaps, to divide those thirty days into three periods: the first, the tentative period, during the passage from Southampton to Lisbon; the second, the generally, socially, agreeable period, while crossing the Atlantic and to Rio; and, third and last, the homely period, from Rio to the final arrival at the River Plate.

By the tentative period, we would mean that part of the voyage which is devoted to make first advances, trying as it were little social experiments with our fellow-passengers. We believe, and we fancy that the belief is not confined to ourselves, that the English first-class passenger has always, as a rule, a natural dislike to any one who has the audacity to intrude himself on him as a fellow-traveller; and if the journey is a comparatively short one, say a matter of six or seven hours or so, the chances are that the feeling has not had time to wear itself off before its termination; but in a case like this, where a limited number of persons is compressed together into an artificial society, not of its own manufacture, we do not see how any one could avoid knowing a little of everybody, that is, at least being on 'Good morning' terms with them—without being of the most advanced hermitic habits: in fact, we maintain that such a thing, in the present state of human nature would be impossible. We have all seen a herd of strange cows turned loose into a field together for the first time and it struck us—but we will not pursue the simile further, for fear of hurting the more delicate feelings of some of our fellow passengers. There is, then, at first, a general feeling of defensive shyness between all parties, with a tendency to clique amongst those who do happen to have known something of one another before: but gradually the natural forces of circumstances assert themselves, and a kind of social thaw sets in: beginning amongst the more isolated fragments of the as yet frozen-up Society, with the interchange of the common courtesies regarding the weather or the passing of the cruet-stand at the dinner, these are melted, as it were, into one large though quite unpremeditated clique: and then, making use of this new accession of united geniality it acts upon the tougher blocks as yet held together by former associations, until the whole quarterdeck company is fused together in one open surface of mutual acquaintance. By the time we arrived at Lisbon, we found persons who from their appearance we might never have dreamt would have had anything in common, planning little parties to go on shore together, and we see the last of European soil.

The occupations of this period of course partake of its general nature, that is, they are more or less isolated. Letters, pages and pages in extent, are written in preparation for the arrival at Lisbon, the most trivial circumstances that would not strike one as in the slightest degree out of the common later on in the voyage, serving now at the beginning as materials of the greatest interest; diaries, bought specially for the occasion, are faithfully kept on a like scale, every little incident being most accurately recorded, the ship's run carefully registered, notes taken of the apparent peculiarities of our fellow passengers etc.—but we will be silent as further regards diaries for, 'Hamlet, what a falling off was there.' The subject may be painful to some of our readers; then too, there is the regular constitutional to be measured out on the quarterdeck, with a view to preserving oneself in a perfect state of health by a fixed quantity of daily exercise, a great deal of novel reading to one self is done: advantage is taken of this excellent opportunity for getting up one's Spanish, and other foreign tongues—'you know, one couldn't have a better place for study than here, where one knows nobody, and there is nothing to interfere with you even if you wanted them'—the Bull-board is produced, and either used amongst themselves by some one or other of the original cliques, or else by some of the more isolated that are already beginning to thaw a little: and lastly some of us find ample occupation either in those thoughts that are so painfully associated with the first few days of a sea-voyage, or in administering comfort to those of our immediate friends who perhaps have been less fortunate in escapting them than ourselves.

But the time has come to leave Lisbon: the passengers are all on board again, each little party having availed itself of the three hours' run to do its little particular piece of the city, and so to be able to contribute its share to the general knowledge by the ship's company of its beauties. The anchor is hauled up, or the moorings are cast off whichever is the particular method adopted at this place for securing the ship; round goes the screw, and the second period of the voyage has begun.

It is when we have finally lost sight of land, and there is nothing around us but an apparently never-ending waste of waters, that we begin to realize how completely we are cut off from the rest of the world, how our very lives are bound up together, indeed, to use a somewhat vulgar but here we think a singularly apt expression, how we are all in the same boat. The time has come when we must be all in all to each other: there can be no exclusiveness without cutting oneself off entirely from mankind, for for the time being, the company on board is the sole representative of mankind: he *must* be a singularly grumpy man who does not at least join the outskirts of the general circle, and he may as well retire at once and for all to the recesses of his berth, not to emerge until the end of the voyage.

We have called this the Generally Socially Agreeable period, because it is that in which every one, bearing in mind the old axiom that first appearances are everything, takes care to put on view only the very best side of him, reserving any little particulars for which he may be distinguished in ordinary society only for exhibition after a more developed acquaintance with the rest of the company. This may also be called the High-pressure period, the period of a constant succession of amusements and surprises: for, with a kind of instinctive dread of the 'ennui' that they know is imminent over them should they slacken even for a moment in their endeavours, every one strives more or less to devise some method for keeping up the excitement: and hero, for the time being, is he who has had the good fortune amongst his fellow-men to discover the last form of amusement.

Wednesday was the day we left Lisbon, and the rest of that week was devoted to the final establishment of sea-legs, and the investigation of what talent there might be latent on board, together with the formation by the more enthusiastic of a kind of club for the promotion of such talent for the good of humanity. Some, again, rendered service by providing amusements of a more material nature, and the first really public break-out on board the Tagus took the shape of a grand rifle competition on the quarter-deck, the weapon used being a small air-gun produced from the interior of his portmanteau by one of the passengers. The ladies particularly distinguished themselves in this competition, nor was the pleasantness of its excitement lessened by the absence of the element of danger, as two or three times did the deadly instrument go off when no one was expecting, thereby creating a remarkable tendency to liveliness on the part of the bystanders.

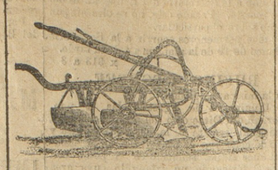
## HOWARD'S CELEBRATED PLOUGHS

Howard's Double Plough.



The above implement effects great economy in the time and cost of ploughing, and its success has been very marked wherever it has been introduced. The depth of work can be regulated by the lever as the plough proceeds, and at the ends, the plough is lifted by the same lever clear off the ground.
The implement is so strongly constructed that in the hands of Kaffirs it cannot readily be injured.

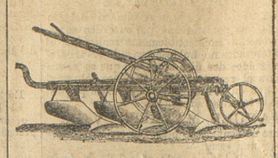
Howard's Triple Plough.



This is similar in construction to the preceding implement, but made to take three furrows. It may at once be converted into a Double Plough by the removal of the hinder body, and this is sometimes desirable on ground where the draught is heavy.

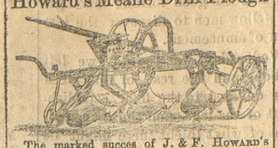
Howard's Mealie Drill Plough



The marked succes of J. & F. HOWARD'S Multiple Ploughs has led to a great and increasing demand for these labour-saving implements.
In addition to the economy effected by their use in time and wages, their usefulness has been materially increased by the addition of a simple drill which deposits the seed in the middle furrow, where it is immediately covered with the earth raised by the next plough share.
By this means the cost of sowing is avoided, and no seed is wasted by being exposed to birds or vermin, nor is it trodden by the draught cattle. The seed is moreover sown at a uniform width and depth, and thus a regular growth of the crop is insured.
